SPRING

Is the season in which bad or poisoned blood is most apt to show itself. Nature, at this juncture needs something to assist it in throwing of the impurities which have collected by the singulah circulation of blood during the cold winter months. Swift's Specific is nature's great helper, as it is a purely vegetable alterative and tonic.

Rev. L. B. Paire, Macon, Ga., writes: "We have been using Swift's Specific at the orphans' home as a remedy for blood complaints, and as a gen-eral beatith tonic, and have had remarkable re-sults from its use on the children and employes of the institution. It is such an excellent tonic, and keeps the blood so pure, that the system is less liable to disease. It has cured some of our chil-dren of Scrotula."

W. H. Gilbert, droggist, Albany, Ga., writes:
"We are selling large quantities of swift's Specific
for a spring alterative and general health tools
and with the best results. It is now largely used
as a preventive and cure for Malaria. There are
many remarkable evidences of its merit in this
section."

DEFEAT OF THE WOOL BILL.

How it Will Affect Politics in the Grent Wool-Growing States. The defeat of the Wool bill in the House yes terday has seen the leading topic of conversa-tion here to-day. The Democratic Members are not feeling the best over the result, gen are not feeling the best over the result, generally, although Mr. Morrison is proud to point his finger and say: "My men did it!"

Mr. Converse (Ohio) is understood to feel pretty badly over the result. One of his most intimate friends said to-day:

"There is not the least doubt that the defeat of the bill hands Ohio over to the Republicans by at least 30,000 majority."

"What does Mr. Converse say about it?"
was asked.

"He believes as I do. He told me that the wool growers will organize, and that Ohio would go 50,000 Republican this year."

"Will it affect any other State?"

"Yea; it will affect both

California and Colorado.

"Yes; it will affect both

California and Colorado.

If there ever was any doubt about those States being Republican there need not be now. If you have watched the petition box in the House and Senate you cannot fail to have observed that hundreds of petitions have come from California and Colorado asking that the duty on wool be restored. The names of thousands of voters were attached to those petitions, enough to control the majorities in those States."

"Do you know what Mr. Converse thinks

petitions, enough to control the majorities in those States."

"Do you know what Mr. Converse thinks will be the result in the Congressional election in Ohio?"

"I am very sure that he does not want to be quoted, but I am sure that he thinks that no bemocratic Member with a small majority will be re-elected. The effect, he says, will be felt more in the election of the Legislature, because the members of the Legislature coming from smaller districts will feel the vote of the people in the contary more. But the result will be felt in the large cities of the States I have mentioned as well."

"Do you consider the vote on the Wool bill a test on the Merison bill?"

"In a measure, yes. But, of course, you do not expect to see the Morrison bill pass the House? Well, I don't. Mr. Morrison will find his bill so amended that he will not want to support it himself, were it to come up; but it won't be considered."

Ah! Do Not Go!

Ah! do not go. Hark! how the bitter blast
Howis o'er the shuddering earth. Ah! do not go.
Lie in my lap and I will hold thee fast,
And breathe soft sighs upon thy pillow'd

Ah! do not go. From the murk midnight sky The chilly rain falls like a funeral veil. Stay with me, stay with me, beloved, and I Will rain warm kisses on the till I fall.
